

**Statement under the European REACH
Directive (EC) 1907/2006**

H.F. Technology certify that all products comply with the European REACH directive as expressed in the (EC) 1907/2006 document.

As an importer / distributor of raw materials under REACH are classified as articles and “preparations” and as such are not subject to registration.

Therefore H.F. Technology reported that all its suppliers to H.F. Technology delivered “substances and substances in preparations” for January 1, 2009 must be pre-registered according to that framework and requested them to H.F. Technology to confirm that they comply with that directive.

H.F. Technology will be the release of substances and preparations to monitor compliance with this directive by examination of the relevant statements and or product safety sheets (MSDS) Materials Safety Data Sheet. Unregistered substances are due to timing out in the REACH decision can not be purchased or processed.
